To whom it may concern:

I am pleased to write this letter of recommendation to share my experience with the Nuera Group of companies. At Front Porch Communities it is important that any consultant or contractor we hire not only performs good work, in a timely and cost efficient manner, it is also imperative that they are sensitive to the residents of our retirement communities. Most of the construction work that they have accomplished at our communities, has been while the facilities are occupied. This creates a special dynamic, that has been handled very well by Nuera and their teams on site.

We have found Nuera to be a full service company, that brings a fresh perspective and capabilities not always found with other consultants and contractors. The Nuera staff members have a sense of what is needed on a project and work diligently to satisfy our staff and complete our construction related projects. They take time to understand our plans and project expectations and how that relates to the budget. Then they work to translate the perspectives of our business operations and into well performed construction services.

I would recommend Nuera to others in need of construction related services on their project. Please feel free to contact me with any questions
